

A collection of 48 2x2 grid puzzles arranged in 6 rows and 8 columns. Each grid contains four different symbols or icons. The symbols vary across the grids, including geometric shapes (circle, triangle, square, rectangle), abstract patterns (dots, lines, crosses), and recognizable objects (heart, clock, musical notes, stick figure, hand, bird, etc.). Some grids have a vertical line between the two columns, and some end with ellipses (...).
